

Oracle Cumulative Change Report Campus Solutions 9.0 Bundles 23 to 33

sort	Product(s)	Feature	Version	Introduced In Image/Bundle	Minimum Peopletools Version
CC	Campus Community	(Phase 1) Initial delivery of the new Evaluation Management System (EMS); provides the setup and administrative structures and components.	9.0 B24	CS 9.0 Bundle 24. My Oracle Support Update ID 1400708.1. Pre-Release Notes: Doc ID 1389697.1. Evaluation Management System Benefits White Paper: Doc ID 1400727.1.	8.53.04
CC		The Common Attribute Framework (CAF) is a new utility that enables institutions to extend the delivered data model to add additional data elements to meet institutionally-specific needs. These added data elements are available throughout the system for processing and reporting and are considered to be configuration, not customization, and will be preserved through the application of maintenance and any future upgrades. Oracle will introduce this with new features we are delivering, such as Program Enrollment, Activity Management and Research Enrollment Tracking and then will incorporate into other, existing features on a phased-in basis. CAF should allow institutions a supported option for eliminating a number of customizations.	9.0 B26	CS 9.0 Bundle 26. My Oracle Support Update ID 1477756.1. Pre-Release Notes: Doc ID 751540.1.	8.52
CC		Phase 2 enhancements include the ability to batch update statuses, copy setup components from one evaluation category to another, the ability to "lock down" completed evaluation levels, upload attachments to any level of the evaluation, and the ability to reassign evaluators.	9.0 B26	CS 9.0 Bundle 26. My Oracle Support Update ID 1477756.1. Pre-Release Notes: Doc ID 751540.1. Evaluation Management System Benefits White Paper: Doc ID 1400727.1.	8.53.04
CC		Enables the updating of Admission Program Action and Admission Program Action Reason codes using the Population Selection and Population Update tools.	9.0 B27		8.52
CC		Delivers web services to create and authenticate a new user and provision the user to a variety of online transactions and provisioned within the institution's security framework. This phase provides NUR sample logon page; NUR sample tester page; NUR Contexts.	9.0 B27	CS 9.0 Bundle 27. My Oracle Support Update ID 1501207.1. Pre-Release Notes: Doc ID 1494915.1.	8.52
CC		Web Services to provide integration between Campus Solutions and the Oracle Identity Management product. Enables the institution to automate user access provisioning based on events or information residing within Campus Solutions.	9.0 B27	CS 9.0 Bundle 27. My Oracle Support Update ID 1501207.1. Pre-Release Notes: Doc ID 1494915.1.	8.52
CC		Phase 1 enables the student to grant and revoke access to specific self-service information and transaction to a designated individual, such as a parent, spouse, or perhaps even employer. Institutions can control which components and transactions are available for the student to delegate and whether or not an EMPLID is required.	9.0 B27	CS 9.0 Bundle 27. My Oracle Support Update ID 1501207.1. Pre-Release Notes: Doc ID 1494915.1.	8.52
CC		Phase 1 provides an automated and extensible framework to generate emails to individuals based on a triggering event in Campus Solutions. This phase activates the Notification Framework to support the new Delegated Access feature; subsequent phases will link it with other features.	9.0 B27	CS 9.0 Bundle 27. My Oracle Support Update ID 1501207.1. Pre-Release Notes: Doc ID 1494915.1.	8.52
CC		(Phase 2) Additional Features April 2013 extends the Notification Framework to include the ability to generate SMS messages, Alerts (informational message that appears on a portal homepage), and worklist items (an actionable hyperlink that appears on a portal homepage), in addition to email. This phase incorporates the Notification Framework into the new Evaluation management feature.	9.0 B29	CS 9.0 Bundle 29. Pre-Release Notes: Doc ID 1541452.1.	8.52
CC		In Phase 1, we deliver a new robust framework to allow institutions to build rules and business logic using entities from the Entity Registry. Includes two user interfaces: Expert (functional) and Developer. Requires PeopleTools 8.53. This initial phase provides integration between the Rules Engine and Program Enrollment. We expect specific functional application adoption of the Rules Engine to follow in subsequent Additional Feature bundles including enabling rule execution directly from components or pages.	9.0 B29	CS 9.0 Bundle 29. My Oracle Support Update ID 1548789.1. Pre-Release Notes: Doc ID 1541452.1.	8.53.04
CC		Evaluation Center and Workflow/Notifications	9.0 B29	CS 9.0 Bundle 29. My Oracle Support Update ID 1548789.1. Pre-Release Notes: Doc ID 1541452.1.	8.53.04
CC		Feature enhancements include "Forgot Password" utility and "Forgot User ID" utility.	9.0 B29	CS 9.0 Bundle 29. My Oracle Support Update ID 1548789.1. Pre-Release Notes: Doc ID 1541452.1.	8.52
CC		Additional enhancements to provide administrative access and privileges, and additional configuration options.	9.0 B29	CS 9.0 Bundle 29. My Oracle Support Update ID 1548789.1. Pre-Release Notes: Doc ID 1541452.1.	8.52
CC		A SEVIS release 6.13, and new functionality to support US Veterans Benefits certification and tracking.	9.0 B30	CS 9.0 Bundle 30. My Oracle Support Update ID 1571063.1. Pre-Release Notes: Doc ID 1564811.1	8.52
CC		In Phase 2, we deliver important updates that integrate the Rules Engine to Program Enrollment and Activity Management. We have also enhanced and expanded the functionality and usability of the Rules Engine itself, including enabling batch processing, data set usage, logging, and user interface improvements.	9.0 B30	CS 9.0 Bundle 30. My Oracle Support Update ID 1571063.1. Pre-Release Notes: Doc ID 1564811.1	8.53.04
CC		Using the PeopleTools 8.53 Activity Guide feature, CS Student Activity Guides help a user create a guided task by defining a template and 'plugging-in' existing pages (either delivered or customized) as Action Items in a specified sequence. Sample Activity Guide Templates use student self-service pages to illustrate how existing pages can be used to create a task and how the assignment of tasks can be organized through the Student Task WorkCenter.	9.0 B31		8.53.06
CC		Latest web services include SCC_NOTIFICATIONS, which allows a user to extract and publish notification information relevant to a student; and seven new service operations released for SCC_CONSTITUENT.	9.0 B31	CS 9.0 Bundle 31. My Oracle Support Update ID 1594532.1. Pre-Release Notes: Doc ID 1590461.1	8.52

Oracle Cumulative Change Report Campus Solutions 9.0 Bundles 23 to 33

sort	Product(s)	Feature	Version	Introduced In Image/Bundle	Minimum Peopletools Version
CC		New fields are added to several core Student Records components to extend the CAF to them and to support functionality in Program Enrollment. Users can associate common attributes to ACAD_PROG, ACAD_PLAN and ACAD_SUBPLAN records to create new fields and extend usability. CAF fields appear under the Additional Information tab.	9.0 B31	CS 9.0 Bundle 31. My Oracle Support Update ID 1594532.1. Pre-Release Notes: Doc ID 1590461.1	8.52
CC		Enhancements allow administrators to specify, in the evaluation code setup, whether or not to send reminder and timeout (when evaluations are overdue) notifications to evaluators. The notifications can be customized for schemes and frequency.	9.0 B31		8.53.04
CC		The Rules Engine Manager makes building rules intuitive by providing Rules Engine Statements such as FOR EACH and the CREATE ENTITY. The Rules Engine Manager UI offers flexibility in rule-building supported by additional validation edits that warn the Expert user during a Save operation. Rules Engine builders can access the Entity Registry view for the Base Entity associated with a Rule or Rule Group. Other enhancements include improved navigation, new cross-reference pages, improved Search functionality. The Rules Engine fully supports Repeatable Common Attribute Framework (CAF). Rules Engine records are enabled with Campus Community security.	9.0 B31	CS 9.0 Bundle 31. My Oracle Support Update ID 1594532.1. Pre-Release Notes: Doc ID 1590461.1	8.53.04
CC		The New User Registration Context setup page is enhanced with an auto-generate feature that provides the specific Production URL and Tester URL to be used by the applications consuming the NUR framework. These application-specific URLs allow users to log in with provisioned security roles to perform online transactions. Users can select which production or tester URL to use and how to make it accessible. They can also fully customize URLs. This enables customers not using the NUR framework to also create a URL to access their custom login page that can later be used in a calling application.	9.0 B31	CS 9.0 Bundle 31. My Oracle Support Update ID 1594532.1. Pre-Release Notes: Doc ID 1590461.1	8.52
CC		Among enhancements designed to support Student Activity Guides, the Student Center 'To Do List' displays checklist items as links, providing direct access to the To Do List Detail page. If set up on the Student Center Options setup page, the To Do List also displays tasks that are assigned to the student using the new Student Activity Guides feature.	9.0 B31	CS 9.0 Bundle 31. My Oracle Support Update ID 1594532.1. Pre-Release Notes: Doc ID 1590461.1	8.52
CC		The CTM Transaction Purge process allows the accurate and selective removal of unnecessary data from transaction and constituent staging after the data 's promotion to production tables. When performed, specific transaction data tied to the constituent data can be identified and purged to avoid creating orphan data.	9.0 B32	CS 9.0 Bundle 32. My Oracle Support Update ID 1615962.1. Pre-Release Notes: Doc ID 1610107.1	8.52
CC		Final phase updates include deep integration with Evaluation Management System, Research Tracking, Program Enrollment, and Activity Management; access to the Notifications Framework; Batch Rule processing; enhancements to the Entity Component Adapter and Trigger Component; and integration with the Rules Engine Framework.	9.0 B33	CS 9.0 Bundle 33. My Oracle Support Update ID 1665770.1. Pre-Release Notes: Doc ID 1642435.1	8.53.04
CC		Enhancement to stored Search/Match results to enable queries.	9.0 B33	CS 9.0 Bundle 33. My Oracle Support Update ID 1665770.1. Pre-Release Notes: Doc ID 1642435.1	8.52
cssm	Campus Self Service Mobile	(Phase 1) New feature to provide web apps for core Student Administration transactions; initial phases to focus on key student-facing transactions. Goal is to deliver web apps for smartphones, using Oracle ADF Mobile technology, to be delivered as part of Campus Self Service maintenance. The first phase for April 2013 includes: Search/Browse Catalog, Class Details, Enrollment (add/drop), Shopping Cart, View Class Schedule, View Grades, Student Preferences, and Notifications for Grades Posted and Waitlist Activity.	9.0 B29		8.52
cssm		Ongoing enhancements to Campus Mobile include multi-class on-screen mapping and new service notifications.	9.0 B30	CS 9.0 Bundle 30. My Oracle Support Update ID 1548793.1. Pre-Release Notes: Doc ID 1564811.1	8.52
cssm		Ongoing enhancements to Campus Mobile include key information processing from Student Financials, Financial Aid, and Campus Community in addition to Student Records. In addition to email and SMS, Campus Mobile now supports a Push Notifications channel that allows users to receive alerts, banners, and badges on their smartphone based on their preferences and their phone 's capability.	9.0 B31	CS 9.0 Bundle 31. My Oracle Support Update ID 1594532.1. Pre-Release Notes: Doc ID 1590461.1	8.52
cssm		Ongoing enhancements include: redesigned and new pages throughout the app, new ability to make a contribution to the university via smart phone, updated user access to class schedules, and mobile access to admissions application status.	9.0 B33		8.52
gen	General CS Enhancements	Patches and fixes for incidents resolved through Development.	9.0 B24	MOS Patch 12903599. Click the ReadMe button to view prerequisites, changed objects, and bugs fixed.	8.52

gen		The prototype of a new student role interface includes access to high-frequency content and transactions in Campus Solutions through simple, icon-based navigation. Customers can evaluate this delivered prototype as an alternative UI for anywhere, anytime, any device access to institution content and transactions, and use it to begin their design work.	9.0 B31	CS 9.0 Bundle 31. My Oracle Support Update ID 1594532.1. Pre-Release Notes: Doc ID 1590461.1	8.52
gen		In Phase 1, we deliver a prototype of the Simplified Student Experience, the next step in Campus Solutions Self Service. SCE is based on CS web services and leverages the Application Development Platform (ADF and ADF Mobile), allowing institutions to customize these features to reflect their brand identity. A delivered template for the new technology can help you understand how to leverage the CS web services and the ADF development environment, to create a new user experience.	9.0 B31	CS 9.0 Bundle 31. My Oracle Support Update ID 1594532.1. Pre-Release Notes: Doc ID 1590461.1	8.52

SF	Student Financials	Phase 2 of the Third-Party Contracts enhancements project includes the ability to cap total contract amounts and/or student amounts, a new process to exclude node or item types on third-party contract setup, provide additional information on corporate accounts, and providing the option to move the student's due dates/billing dates to the corporate account.	9.0 B24		8.52
SF		This third and final phase of the Third-Party Contract enhancement project provides the ability to extract student enrollment information for the purpose of printing on the Corporate Bill/Invoice, and allowing input of Contract Emplid and Contract Number on the Corp Group Post component.	9.0 B25		8.52
SF		General Ledger enhancements to support reconciliation between Student Financials and the PeopleSoft General Ledger. The Generate Accounting Entries and Generate Cashiering Entries processes are modified to update four new fields on the SF_ACCTG_LN table: Item Term, Item Line, REF1 Description and Receipt Number. These planned additions will enhance the efficiency of CS-GL Reconciliation, reduce the need for creating and maintaining customizations and reduce the administrative costs associated with these transactions.	9.0 B27		8.52
SF		New enhancements for Tuition Calculation Waivers, includes the ability to prioritize multiple waivers, prorating a waiver for dropped units, the option to apply waivers to either the "gross" or the "net" (remaining balance) amounts, and the ability to override a waiver for an individual student.	9.0 B27		8.52
SF		New functionality to enhance the Posting Select Charges to Pay and Tuition Calculation Waiver processing to provide the ability to restrict the payment or waiver.	9.0 B29	CS 9.0 Bundle 29. My Oracle Support Update ID 1548789.1. Pre-Release Notes: Doc ID 1541452.1.	8.52
SF		A new 1098T template.	9.0 B30	CS 9.0 Bundle 30. My Oracle Support Update ID 1571063.1. Pre-Release Notes: Doc ID 1564811.1	8.52
SF		Updates to the StudiLink process, as well as enhancements to core Student Financials banking features that accommodate Dutch banking requirements.	9.0 B30	CS 9.0 Bundle 30. My Oracle Support Update ID 1571063.1. Pre-Release Notes: Doc ID 1564811.1	8.52
SF		In this final phase, we deliver new functionality to enhance the Tuition Calculation Waiver processing by providing the option of creating Tuition Calculation Installments and applying waivers proportionally to the installments.	9.0 B30	CS 9.0 Bundle 30. My Oracle Support Update ID 1571063.1. Pre-Release Notes: Doc ID 1564811.1	8.52
SF		Enhancements enable the Cashiering functionality to use Oracle Business Intelligence Publisher as a reporting solution that streamlines reports and form generation. Three XML templates are also delivered: Departmental Receipts template, Student Payments, Corporate Payments and Check Cashing template, and Interim Deposit and Replenish Cash template.	9.0 B31	CS 9.0 Bundle 31. My Oracle Support Update ID 1594532.1. Pre-Release Notes: Doc ID 1590461.1	8.52

Oracle Cumulative Change Report Campus Solutions 9.0 Bundles 23 to 33

sort	Product(s)	Feature	Version	Introduced In Image/Bundle	Minimum Peopletools Version
SF		Latest web services include SSF_ FINANCIALS, which allows a user to extract and publish student account information.	9.0 B31	CS 9.0 Bundle 31. My Oracle Support Update ID 1594532.1. Pre-Release Notes: Doc ID 1590461.1	8.52
SF		On the Student Financials, Tuition Calculations Control component, at the Academic Career, Term level a new checkbox allows tuition calculation upon a Term Withdrawal transaction in Student Records. This checkbox allows for tuition calculation regardless of the tuition calculation component security.	9.0 B32	CS 9.0 Bundle 32. My Oracle Support Update ID 1615962.1. Pre-Release Notes: Doc ID 1610107.1	8.52
SR	Student Records	(Phase 2) Organize and Manage: introduces the Result Scale which replaces the previously delivered Result Scheme (July 2011) and offers a much more configurable setting to define how marks, grades and outcomes are defined.	9.0 B24	CS 9.0 Bundle 24. My Oracle Support Update ID 1400708.1. Pre-Release Notes: Doc ID 1389697.1. Program Enrollment and Activity Management Documentation and Benefits Guides: Doc ID 1400723.1.	8.53.04
SR		Research Enrollment Tracking (RET) provides a complete set of capabilities to support the admission, enrollment, and evaluation of research candidates throughout the life-cycle of their thesis, and the submission and evaluation of their thesis. Phase 1 delivers new data structures and setup components to support the management of the research candidate and the thesis.	9.0 B24	CS 9.0 Bundle 24. My Oracle Support Update ID 1400708.1. Pre-Release Notes: Doc ID 1389697.1. Research Enrollment Tracking Benefits White Paper: Doc ID 1400723.1.	8.53.04
SR		Program Planning and Enrollment (Phase 2) introduces the Academic Progress Tracker (APT). The primary goal of this phase is to provide a structure that can support the various business processes that center on the management of student program data, from initial curriculum assignment, enrollment, and progression through academic requirements through to program completion.	9.0 B24	CS 9.0 Bundle 24. My Oracle Support Update ID 1400708.1. Pre-Release Notes: Doc ID 1389697.1. Program Enrollment and Activity Management Documentation and Benefits Guides: Doc ID 1400723.1.	8.53.04
SR		Activity Management Phase 3 primarily includes activities related to scheduling, especially those related to examinations.	9.0 B25	CS 9.0 Bundle 25. My Oracle Support Update ID 1453127.1. Pre-Release Notes: Doc ID 1450105.1. Program Enrollment and Activity Management Documentation and Benefits Guides: Doc ID 1400723.1.	8.53.04
SR		(Phase 3) New updates include the ability to create Academic Item Registry (AIR) entries; connecting Program Enrollment AIR result types to Activity Management; and enablement of the Common Attribute Framework for AIR.	9.0 B26	CS 9.0 Bundle 26. My Oracle Support Update ID 1477756.1. Pre-Release Notes: Doc ID 751540.1. Program Enrollment and Activity Management Documentation and Benefits Guides: Doc ID 1400723.1.	8.53.04
SR		Phase 4 enhancements include minimum passing grades; display options for result scales, individualized content option for the Activity Manager, sorting sequence for multiple content items, enablement of the Common Attribute Framework for the Activity Registry, content conditions, and exam only course flags.	9.0 B26	CS 9.0 Bundle 26. My Oracle Support Update ID 1477756.1. Pre-Release Notes: Doc ID 751540.1. Program Enrollment and Activity Management Documentation and Benefits Guides: Doc ID 1400723.1.	8.53.04
SR		(Phase 2) Enablement of the Common Attribute Framework for research topics, supervisors, consumption, other assignments, and thesis management; and a revised layout for the thesis submission and final results pages. Also included are the ability to associate a research topic to an academic or external organization and to one or more contacts.	9.0 B26	CS 9.0 Bundle 26. My Oracle Support Update ID 1477756.1. Pre-Release Notes: Doc ID 751540.1. Research Enrollment Tracking Benefits White Papers: Doc ID 1400727.1.	8.53.04
SR		This Phase 4 update focuses on connecting the Activity Management structure and functionality to directly support student enrollment with the planned delivery of the Individual Activity Manager (IAM). The IAM is the component that stores enrolled student activity data - enrolled and assigned activities, and activity results. The IAM provides the ability to assign content, track progress and grade academic work for each of the student 's classes.	9.0 B27	CS 9.0 Bundle 27. My Oracle Support Update ID 1501207.1. Pre-Release Notes: Doc ID 1494915.1. Program Enrollment and Activity Management Documentation and Benefits Guides: Doc ID 1400723.1.	8.53.04
SR		Student milestone enhancements provide new fields for the Milestone setup and templates to calculate completion dates and terms; the ability to add attachments to milestones; the ability to determine if milestones are to be deployed and exposed to students via the Student Center; and adding milestone levels to the milestone template.	9.0 B27		8.53.04
SR		Phase 3 provides the ability to define, calculate, and track the time towards completion of research studies; tracking and administering special requests from research candidates; and the definition and management of Research Supervisors and Evaluators.	9.0 B27	CS 9.0 Bundle 27. My Oracle Support Update ID 1501207.1. Pre-Release Notes: Doc ID 1494915.1. Research Enrollment Tracking Benefits White Papers Doc ID 1400727.1.	8.53.04
SR		(Phase 4) Additional support for the Academic Progress Tracker (APT, including individual student "term maps" and enablement of the Common Attribute Framework; batch creation of APT instances and batch activation. Also included is enabling the Common Attribute Framework for the Class Associations table.	9.0 B27	CS 9.0 Bundle 27. My Oracle Support Update ID 1501207.1. Pre-Release Notes: Doc ID 1494915.1. Program Enrollment and Activity Management Documentation and Benefits Guides: Doc ID 1400723.1.	8.53.04
SR		Higher Education Statistics Agency (HESA) Updates: Student Return 2012/13 updates; Destination of Leavers for Higher Education Survey amendments; new reduced returns.	9.0 B28	Introduced in PeopleSoft CS 9.0 Bundle 28. My Oracle Support Update ID 1523924.1. Pre-Release Notes: Doc ID 1514593.1.	8.52
SR		Reporting Year 2012 Updates: Completion percentage and joint degree partner higher education provider codes; Student Amenities Fees - SA-HELP updates. Reporting Year 2013 Updates: addition of CHESSN to Application Details file; new translate value for maximum student contribution indicator.	9.0 B28	CS 9.0 Bundle 28. My Oracle Support Update ID 1523924.1. Pre-Release Notes: Doc ID 1514593.1.	8.52

sort	Product(s)	Feature	Version	Introduced In Image/Bundle	Minimum Peopletools Version
SR		Victorian Tertiary Admissions Center (VTAC) Updates: VTAC data dictionary updates for 2013 include significant structural changes and new verification and statistical reporting data elements.	9.0 B29	CS 9.0 Bundle 29. My Oracle Support Update ID 1548789.1. Pre-Release Notes: Doc ID 1541452.1.	8.52
SR		Supports research and other academic projects for non-research students. Uses similar structures (thesis tracking, evaluations, supervisors, etc.) as for research candidates but can be supported for students in any academic program/plan.	9.0 B29	CS 9.0 Bundle 29. My Oracle Support Update ID 1548789.1. Pre-Release Notes: Doc ID 1541452.1.	8.52
SR		Additional enhancements include new Candidate Self Service functionality for research students and applicants to search for available research topics and to submit and update service requests (including administrator access).	9.0 B29	CS 9.0 Bundle 29. My Oracle Support Update ID 1548789.1. Pre-Release Notes: Doc ID 1541452.1.	8.53.04
SR		HESA Key Information Sets Return 2013-14: Support for the 2013/14 KIS return.	9.0 B29	CS 9.0 Bundle 29. My Oracle Support Update ID 1548789.1. Pre-Release Notes: Doc ID 1541452.1.	8.52
SR		Ongoing enhancements to Program Enrollment include student self service access and Rules Engine integration.	9.0 B29	CS 9.0 Bundle 29. My Oracle Support Update ID 1548789.1. Pre-Release Notes: Doc ID 1541452.1.	8.53.04
SR		Ongoing enhancements to Activity Management include batch creation of student Individual Activity Managers (IAMs) and activity rosters deployed in an Activity Management Workcenter.	9.0 B29	CS 9.0 Bundle 29. My Oracle Support Update ID 1548789.1. Pre-Release Notes: Doc ID 1541452.1.	8.53.04
SR		Ongoing enhancements to Program Enrollment include a connection to Rules Engine functionality and updates to the Academic Progress Tracker.	9.0 B30	CS 9.0 Bundle 30. My Oracle Support Update ID 1400723.1. Pre-Release Notes: Doc ID 1564811.1	8.53.04
SR		Updates to the SA-HELP Deferral process.	9.0 B30	CS 9.0 Bundle 30. My Oracle Support Update ID 1571063.1. Pre-Release Notes: Doc ID 1564811.1	8.52
SR		Ongoing enhancements to Activity Management include integration with Rules Engine functionality and self-service enhancements.	9.0 B30	CS 9.0 Bundle 30. My Oracle Support Update ID 1400723.1. Pre-Release Notes: Doc ID 1564811.1	8.53.04
SR		Enhancements allow an institution to define planning periods for students when using the redesigned My Education Plan, can review their assigned curriculum, select optional courses and update their plan. They can also choose when a course will actually be taken as opposed to a prescribed time. The Program Overview component displays an entire program 'tree ' allowing students to view requirement and course details.	9.0 B31		8.53.04
SR		Enhancements include Online Notification functionality for certain components where administrators can initiate a predefined notification, an ad hoc message or a combination of the two using the Notifications Framework. Administrators can configure the assignment of service requests. They can set up Service Request notifications defined at the request-type level, to notify students and colleagues who can view these notifications and respond. Enhanced Service Request Self Service setup allows for locking completed service requests from further student updates. Enhancements are made to Research topics, Thesis titles and Project Status codes. A new Assignment Type Batch Creation Process allows school-defined assignments to be assigned to groups of IDs.	9.0 B31	CS 9.0 Bundle 31. My Oracle Support Update ID 1594532.1. Pre-Release Notes: Doc ID 1590461.1	8.53.04
SR		Addition of the Entity Framework to support CAF in the Individual Activity Manager (IAM) allows users to associate attributes that were defined at the class level with individual students. Changes in the Activity Manager reflect in the IAM. The Result and Activity Rosters have been enhanced. Users can restrict faculty and exam staff capabilities in the Activity Management WorkCenter. Enhanced Activity Management and Rules Engine Integration enable the integration of late penalty and primary calculations into Activity Management WorkCenter while excluding calculations from it. Updates to Activity Management Self Service incorporate configurable messaging to Activity Registry and Activity Manager Views.	9.0 B31	CS 9.0 Bundle 31. My Oracle Support Update ID 1594532.1. Pre-Release Notes: Doc ID 1590461.1	8.53.04
SR		In Phase 1, we added two new elements to Student Data Collection to support legislative changes to OS-HELP for the 2014 reporting year. These are: OS-HELP language code and OS-HELP Language study commencement date.	9.0 B32	CS 9.0 Bundle 32. My Oracle Support Update ID 1615962.1. Pre-Release Notes: Doc ID 1610107.1	8.52
