

Reasons to delete the EFFDT row from Criteria

The prior pages outline circumstances that require we change the EFFDT criteria defaulted by PeopleSoft. There will be a few instances where we need to delete that criteria altogether.

1. If we want all of the history from a particular EFFDT table. Example: Let's say we want to retrieve all of the JOB data history for an employee. If we set up our criteria as follows:

[Add Criteria](#)
[Group Criteria](#)
[Reorder Criteria](#)

Logical	Expression1	Condition Type	Expression 2	Edit
	A.EFFDT - Effective Date	Eff Date <=	Current Date (EffSeq = Last)	Edit
AND	A.EMPLID - EmplID	equal to	KU0015	Edit

This will retrieve only one row for Carmichael Espinosa (KU0015), because we have the EFFDT LOGIC still on the criteria tab.

[Query](#)
[Expressions](#)
[Prompts](#)
[Fields](#)
[Criteria](#)
[Having](#)
[View SQL](#)
[Run](#)

[View All](#)
[Rerun Query](#)
[Download to Excel](#)

	ID	Eff Date	DeptID	Job Code	Supr ID	Annual Rt
1	KU0015	02/02/1998	10000	310015	KU0068	60008.000

To retrieve all of the rows for Mr. Espinosa, we modify the criteria by deleting the EFFDT LOGIC and our criterion appears as follows:

[Add Criteria](#)
[Group Criteria](#)

Logical	Expression1	Condition Type	Expression 2	Edit
	A.EMPLID - EmplID	equal to	KU0015	Edit

[Save](#)
[Save As](#)
[New Query](#)
[Preferences](#)
[Properties](#)
[New Union](#)
[Return to](#)

Our results then will retrieve all of the employee history for employee KU0015, as seen below:

[Rerun Query](#)
[Download to Excel](#)

	ID	Eff Date	DeptID	Job Code	Supr ID	Annual Rt
1	KU0015	11/02/1980	11000	140080		41600.000
2	KU0015	04/01/1982	11000	140080		44200.000
3	KU0015	06/13/1982	11000	140080		44200.000
4	KU0015	03/20/1984	27000	310005		56160.000
5	KU0015	02/02/1998	10000	310015	KU0068	60008.000

PeopleSoft Query Reference

PeopleSoft 8.9; Query 8.48

2. We may delete the EFFDT criteria if we are basing our logic on some other date field within Peoplesoft. An example would be if we want to find those employees whose coverage for medical ended on a certain day. To do this report we would delete the EFFDT row of criteria and our criteria would appear as follows. This logic would find everyone whose coverage was terminated on July 15, 2000.

The screenshot shows the 'Criteria' window in PeopleSoft. At the top are buttons: 'Add Criteria', 'Group Criteria', and 'Reorder Criteria'. Below these is a toolbar with 'Customize', 'Find', 'First', '1-2 of 2', and 'L6'. The main table has columns: 'Logical', 'Expression1', 'Condition Type', 'Expression 2', 'Edit', and 'Delete'. There are two rows of criteria:

Logical	Expression1	Condition Type	Expression 2	Edit	Delete
	ACOVERAGE_ELECT - Coverage Election	equal to	T	Edit	-
AND	ACOVERAGE_BEGIN_DT - Coverage Begin Date	equal to	2000-07-15	Edit	-

At the bottom are buttons: 'Save', 'Save As', 'New Query', 'Preferences', 'Properties', 'New Union', and 'Return to Search'.
