- SR Student Milestones
- SR Veteran’s Benefits
Campus Solutions Bundle #31 Summary Review

By: Ryan Foxworthy on Nov 13, 2013
250 views as of Dec 03, 2013 10:30 PM

HEUG Colleagues,

I have been encouraged by many of you to submit my Bundle Summary as a Blog on the HEUG. This is my first time doing this, so I would ask for your patience as I try this new medium to present my review notes to you all.

I have completed my review of CS Bundle #31 and I can say that this bundle was overall a light one but high on impacts. This bundle sees new functionality being rolled out to help support our Latin American Colleagues along with Regs and Legis for Financial Aid. In addition, we are continuing to see the gradual phasing out of Crystal Reports from Campus Solutions as SF has had a large number of reports adapted for BI Publisher.

This Bundle also saw increased functionality for Campus Solutions Self-Service mobile with the delivered web services supporting Enrollment, Financial Aid, and Student Financials. On a technical side, we also see some additional Row Level security options delivered as well as updates to the current User Security Replacement process.

Below please find the DocId for Functional Documentation pertaining to this Bundle:
