Campus Solutions: October 2012 Bundle Update

HEUG Education Webinar
December 2012

Susan Beidler, Product Strategy
Safe Harbor Statement

The following is intended to outline our general product direction. It is intended for information purposes only, and may not be incorporated into any contract. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decisions.

The development, release, and timing of any features or functionality described for Oracle’s products remains at the sole discretion of Oracle.
THE HIGHLIGHTS
October 2012

*Campus Solutions Delivered*

**Bundle Includes:**

- 5 new features (or phases of new features)
- 5 significant enhancements to existing features
- 3 new and updated web services
- 6 pieces of documentation
  - Several TOIs, Advisor Calls, planning HEUG Webinar
- 1 integration delivered
  - Oracle Identity Management
- *And a Partridge in a Pear Tree...*
Customer Demands…Our Response

- Extensibility
- Flexibility
- Simplicity
## Campus Solutions Roadmap

**Customer Driven Enhancements, Regs/Legs**
October 2012 Bundle

Focus for this Bundle

Customer Driven Enhancements
- Milestone Enhancements
- SF to GL reconciliation enhancements
- Admissions App Program Action Reason update
- FA Regs/Legs

Next Generation Functionality
- Integration with OIM
- New User Registration

Evolving Academic Models
- Sample Online Application
- Tuition Waivers
- Program Enrollment
- Assessment/Activity Management
- Research Enrollment Tracking

Modern User Experience
- Delegated Access Framework

Program Enrollment

Details

WHAT
• Enrollment model where the student's Program of Study dictates, or restricts the classes the student can take, as well as the timing and sequencing of those classes. New structures to define all the elements that comprise the overall program of study along with rules for progressing from one level to the next.

VALUE
• Flexibility to define student enrollment activities to support student success, improved graduation rates, transparency in expectations

PLANNED
• Self-service using new Tools style sheet
• Rules Engine to support progression calculations
### Example: Grad Business Program Curriculum

OR Internship Milestone
Activity Management

Details

**WHAT**
- Ability to identify within an individual course, all the elements of that course that require assessment (e.g., marks or grades), along with new rules and options for calculating marks and overall course grades.

**VALUE**
- Flexibility to define any type of assessment structure, including learning outcomes, competencies, attendance, etc. Supports student success through modern teaching and learning models

**PLANNED**
- Self-service using new Tools style sheet
- Rules Engine to support assessment calculations
Examples: Varied Class Assessments

Introduction to Drama

**ASSESSMENT**
Assessment Weighting: 100% CW
CW1: 20%. Learning Outcome 1
Make a short group presentation maximum 15 minutes and submit a report with all extra resources attached (report outline, supporting materials, bibliography).
CW2: 40%. Learning Outcome 2
An analysis of a scene which has not been discussed in class. You are not expected to use secondary sources in this essay because the central aim of the assessment is to have you explore and generate your ideas and interpretations for of the scene, informed by class discussions. (1500 words)
CW3: 40%. Learning Outcome 3
A review of a play attended in theatre. (1000 words)

Ethics

**Assessment**

- 67% - EXAMINATION
- 33% - ASSESSED ESSAY

The point is: Program Enrollment and Activity Management have UNIVERSAL APPEAL!!
Research Tracking and Enrollment

Details

- Designed to track the admission, enrollment, and completion of students enrolled in a research program, e.g., a PhD program. Functionality includes new data structures to track information on the candidate, the thesis, including submission plans, leave management, thesis advisors, thesis evaluations and approvals, and review boards.

- Filling gap for the unique requirements for this type of student

- Management of stipends and funding sources (e.g., scholarships)
- Thesis tracking for non-Research student
- Additional consumption calculation options
Milestone Enhancements

Details

WHAT

• Significant enhancements to the setup of milestones, self-service capabilities (including use of Attachments and view in Student Center) and ability to assign (and grade!) a milestone to a student through a course and through a Pop Select process

VALUE

• We think you will LOVE these enhancements! These updates create a much more usable and powerful feature, supporting both the Research and traditional student.

PLANNED

• Nothing more planned on the roadmap
Tuition Calculation Waivers

Details

**WHAT**
- Provide the option for applying the waiver on tuition “gross amount” or the “net amount”; provide increased flexibility to allow for prioritizing multiple waivers, prorating dropped units and overriding a waiver at the student assignment level.

**VALUE**
- Increased usability and accuracy (the right amount of a waiver for specific person/group), including prioritizing multiple waivers and ability to manage waivers for a specific student.
- Allow for waivers to apply proportionally across the installments created through tuition calculation and “stick” to the installments.
- Allow the Student Assignment Waiver component to provide for the beginning time frame for the waiver to apply proportionally.
GL Reconciliation Enhancements

Details

WHAT

• Enhanced the SF_ACCTG_LN table to include four new fields (Item Term, Item Type, Reference Number and Receipt Number). The Generate Accounting Entries and Generate Cashiering Entries process is updated to populate these new fields.

VALUE

• Enhance the efficiency of CS-GL Reconciliation, reduce the need for creating and maintaining customizations and reduce the administrative costs associated with these transactions.

PLANNED

• Nothing more planned on roadmap
Sample Online Application

Details

WHAT

• “Out of the box” sample online application that our customers can use for reference, training, deconstruction, and testing; front end to AAWS

VALUE

• Customers can test AAWS thoroughly using this sample and then hook up their own Application; built in Ptools to aid quick deployment by IT staff (no new technology to learn)

PLANNED

• Nothing more planned on roadmap
Admissions Program Action/Reason

Details

**WHAT**

- Provide alternative process to update Admissions Application Program data; current process remains viable

**VALUE**

- Improve timeliness and accuracy of updates for Admissions Application Program data through a single step process; utilizes App Engine and Pop Select utility, reducing 3 steps to 1 step

**PLANNED**

- Nothing more planned on roadmap
CS-OIM Integration

Details

WHAT

• Supported connector to Campus Solutions 9.0 delivered by OIM; makes use of Constituent and Affiliations messaging and functionality

VALUE

• Makes the deployment of OIM that much easier with CS connector

PLANNED

• The OIM team delivered the actual Connector in their November Bundle
• See the OIM documentation, links from the updated Campus Community PBooks

ARCHITECTURE
Delegated Access

**Details**

- Framework that standardizes who can delegate what access and to whom
- Satisfying a high priority, long-standing request from customer base
- Enhancements to the controls of when content is delegated or removed
- Delivery of specific pages (e.g., student self-service pages made accessible to the parent)
- Delivery of Admin pages to view students’ delegations
- Parent Center…under consideration!
New User Registration

Details

WHAT

• Framework to provide “guest” access to a CS page or transaction

VALUE

• Facilitates the *Delegated Access* capabilities; allows parent to log in to Campus Solutions, leveraging existing Ptools security processes; framework is usable in other transactions that accommodate “guests”

PLANNED

• Enhancements to the Password controls (reset, Forgot Password, etc.)
October 2012

Summary of Benefits

The Campus team continues to add value to your institution by delivering

• **extensibility** through architectural advances such as integration with Oracle Identity Management

• powerful new **flexibility** in core business processes such as enhanced controls over tuition waivers

• new features to improve the **User Experience**, exemplified by the new Delegated Access framework
Customer Communications

Bundle / Additional Features Updates

- **Annual Statement of Direction**
  - Outlines our strategy and roadmap for the upcoming year
  - Summarizes planned projects and the business benefits of each
  - Published to My Oracle Support in May of each year
  - 2012-13 SOD: Doc ID 1462413.1

- **Pre-Release Notes**
  - Provides additional detail on the design and benefits of new Additional Features planned for the next upcoming bundle
  - Published to My Oracle Support approximately 4-6 weeks prior to the release of each bundle
  - October 2012 Pre-Release Notes: Doc ID 1494915.1

- **Bundle Documentation**  Doc ID 1501207.1
  - PeopleBooks documentation for all new Additional Features
  - New feature-specific documentation such as Developer Guides, white papers, and Implementation guides
  - Spreadsheet detailing each individual fix/update delivered in the bundle
Call to Action

• Stay engaged so you’re aware of enhancements
• Analyze the enhancements that add value for your institution
• Create a plan for adoption
• Share your success!
