# **Business Practice Change**

**PeopleSoft Third-Party Products – Business Objects Enterprise and Crystal Reports** 

### **Providing Choice** *Continuing to Support Existing Technologies*

#### **Choice of Technology**

• Certifying market-leading products

#### Maximize Existing Assets

- Leverage existing hardware infrastructure
- Leverage existing software infrastructure
- Leverage existing skills

#### **Platform Openness**

- Choice of operating systems
- Choice of databases
- Choice of web/application servers
- Choice of reporting tools
- Choice of web browsers

#### ORACLE

### Business Practice Change PeopleSoft Third-Party Products

- Oracle is committed to supporting customer *choice of technology* components they use with PeopleSoft applications
- Continuing an active program of *certifying* market-leading technology components
- Previously some certified third-party components were embedded in PeopleSoft by Oracle, while others were licensed directly from their respective vendors
- In order to align Oracle's practices regarding certified third-party components customers will *license Business Objects Enterprise and Crystal Reports directly from its source vendor*

### **Business Practice Change** *Business Objects Enterprise and Crystal Reports*

# ANNOUNCEMENT

- As of July 1, 2011, Oracle will discontinue distribution of Business Objects Enterprise and Crystal Reports with PeopleTools
- Existing customers may continue to use the Business Objects Enterprise and Crystal Reports license previously received from Oracle
- Business Objects Enterprise and Crystal Reports will continue to be certified with future PeopleTools releases
- Customers who wish to use future versions of Business Objects products with PeopleSoft will need to obtain appropriate license and support directly from SAP/Business Objects
- PeopleSoft reports will continue to be delivered using Oracle BI Publisher, which is embedded in PeopleTools free-of-charge

### **Business Practice Change** *Business Objects Enterprise and Crystal Reports*
